Crossword Instructions & Tips

You know it, you love it: the humble crossword puzzle. While we're sure you already have a knack for solving these sweet little brain teasers, we just to let you know that the following crossword puzzles...

- Use a mix of traditional clues and fill-in-the-blank clues
- May include answers of more than one word as noted in parentheses, for example, (Two words) or (Three words)
- May include answers in a combination of words and singular letters as noted in parentheses, for example, (One word, One letter)

And, if you have trouble solving some of the puzzles (without looking at the solution), here are a few tips:

- Remember that spelling definitely counts
- It doesn't matter if you use uppercase, lowercase, or a combination of letters
- Don't be afraid to write, erase, and write again--that's the advantage of using a digital device
- ...And Googling is totally allowed. We won't judge!

Word Search Instructions & Tips

Ah, yes, everyone's favorite stress-reliever (maybe)... word searches!

Assuming you already have a good grasp on how to solve a word search puzzle, we just want to let you know that the following searches may...

- Have words that appear side-to-side, up-and-down, diagonally, and even backwards
- Feature phrases that are one, two, or three words long

And, if you have trouble solving some of the puzzles (without looking at the solution), here are a few tips:

- Try scanning the puzzle line by line, both up-and-down and side-to-side
- Search for the longest words or phrases first
- While looking for a specific word, search for the first letter, then scan all letters spanning out from that letter in the puzzle

Kriss Kross Instructions & Tips

Kriss kross puzzles look similar to crossword puzzles; however, they have no clues and, instead, straight up give you a set of words to put into the cross-shaped puzzle.

An example of a finished kriss kross puzzle may look something like...

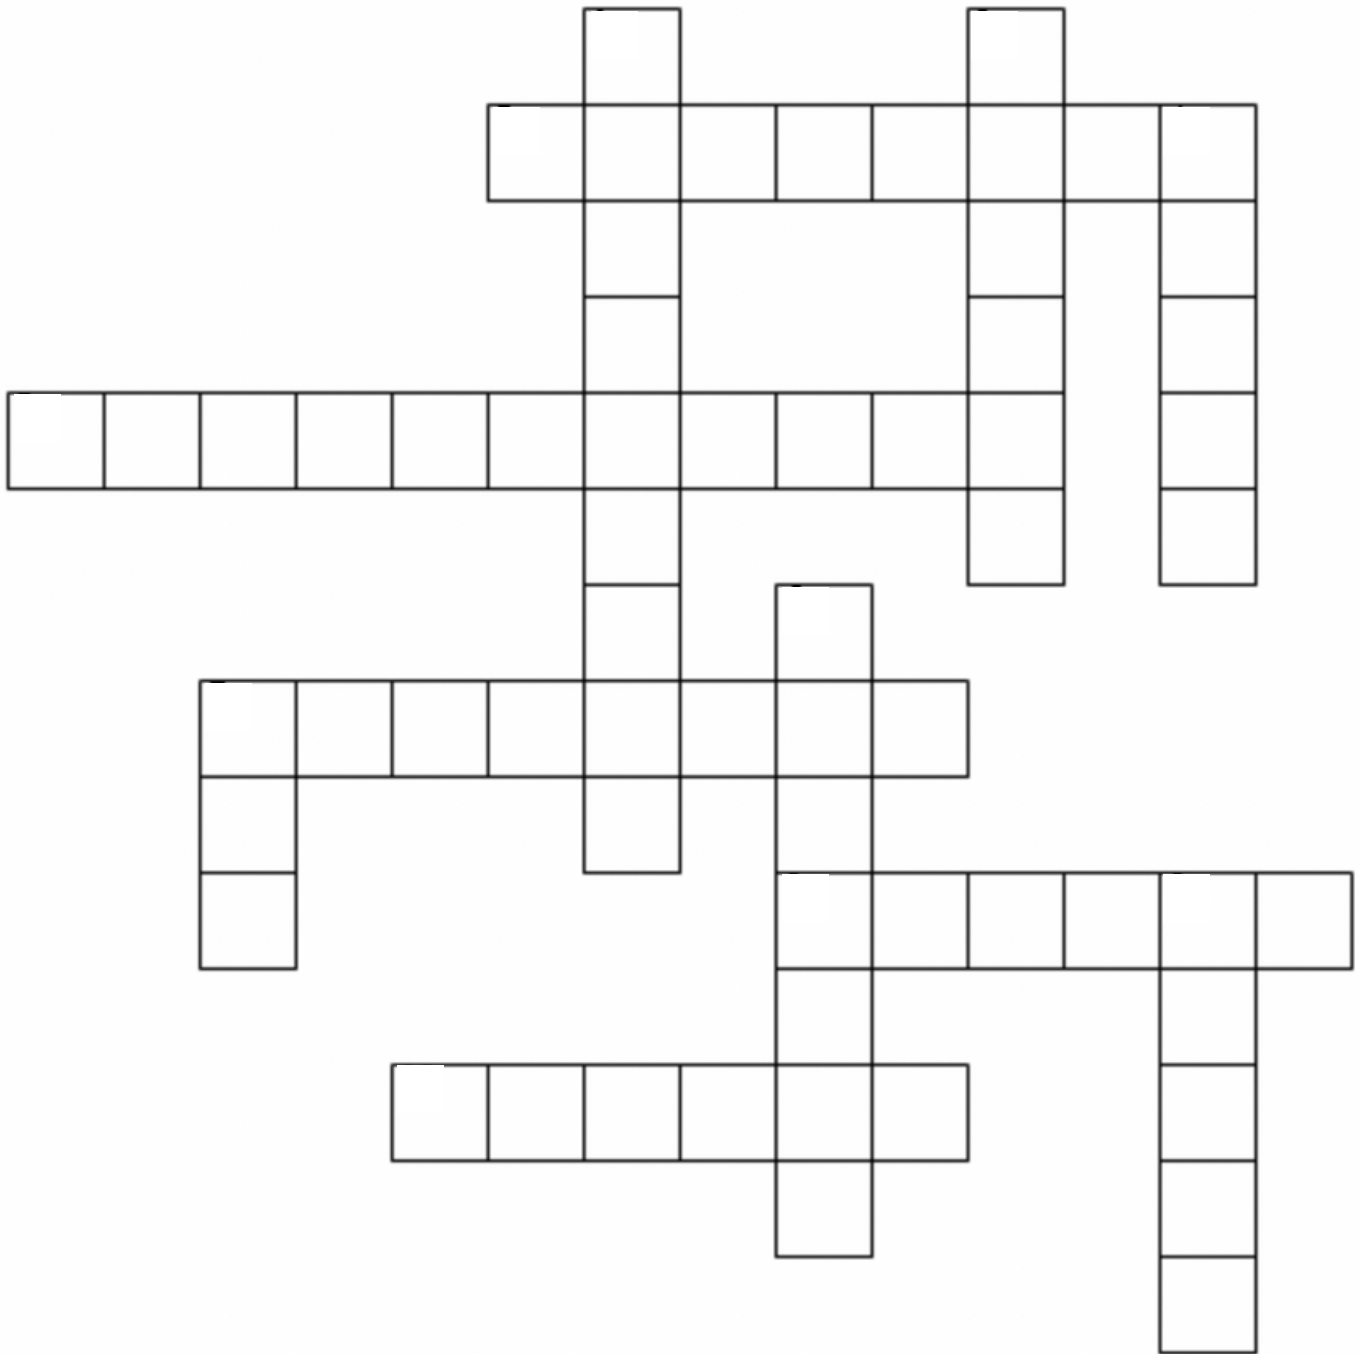

BOOK
AUTHOR

And, if you have trouble solving some of the puzzles (without looking at the solution), here are a few tips:

- Pay attention to how many letters are in each given word/phrase and how many spaces are in each line of the puzzle
- Place the longest words/phrases into the puzzle first and save the shortest for last
- Don't be afraid to write, erase, and write again--who cares if you make a mistake?

Cryptogram Challenge

Instructions & Tips

Well, if you're looking for a puzzling challenge, you've come to the right place. Cryptograms include a set of letters that have been replaced with numbers plus a hidden message that you must decipher using those numbers.

The following cryptogram challenges each feature a popular quote inspired by BookTok, and we've helped you out by solving for a few letters already. Letters that will not be used in the puzzle will also be noted.

And, if you have trouble solving some of the puzzles (without looking at the solution), here are a few tips:

- Look at the coded message as if it were a phrase on “Wheel of Fortune”
- Once you solve the number for a letter, enter the number in the given chart to remember it
- When you get stuck, step back and try to focus on the message as a whole rather than just word-by-word
- Don't stress, don't fret... and have fun!
